

Dear Colleague

We are writing to you to let you know about an exciting new development in our industry, the launch of a new company, Mobility Networks.

Mobility Networks was established in order to provide a full range of Mobility Products to both the personal and commercial mobility sectors. The journey began with the acquisition of Passenger Lift Services in the UK in June 2013 and has been further developed with the merger of API in the Czech Republic. This unique partnership brings a lot of synergies and a great potential for business development worldwide, together with the technical development of new products for the industry.

We are now ready to launch the new business and commence trading under the Mobility Networks brand. A press release and an overview brochure are attached for your information.

We believe that high quality, excellent service and local delivery are the keys to our success. Our ethos is to provide the best mobility and accessibility products at competitive prices through our growing network of subsidiaries and partners across Europe and further afield. A number of announcements will be made in the coming months as these subsidiaries begin to operate. A contact list for those already in operation is provided below.

We would like to take this opportunity to thank our customers through PLS and API for your business and we look forward to a continuing relationship that will become ever closer as we expand our capabilities.

To the many companies that are not yet our customers, we would welcome the opportunity to discuss ways in which we can cooperate in the future and will be in touch in due course. Should you have a more immediate requirement however, we would be very pleased to hear from you.

We would like to extend a warm hand of friendship to all in the mobility industry and look forward to developing strong and lasting partnerships in the future.

With kind regards

Mike Simmonds
