**MANUAL
OPERATION**

Emergency manual controls are to be used to operate the lift in case of power supply failure.
They are not intended for 'normal' use as an alternative to powered operation.

DEPLOY/DOWN
On the hydraulic unit, turn manual override valve counterclockwise (Max 1/4 turn)
Lower lift using black knob.

The platform will open and descend until making contact with the ground or if the lowering valve is closed (by turning the knob clockwise).

IMPORTANT
Before any other operation, close the lowering valve, by turning its knob clockwise.

UP/STOW
Tighten the lever into the threaded hole. (inside the vertical slot marked by the relevant label)

Operate the pump manually alternating up / down vertical movements.

The platform will reach vehicle floor level to allow user on / off the platform. Continue to operate the pump to stow the platform.

TAR0234

#E499107

WARNING
READ MANUAL

Make sure that the movement of the lift corresponds to each command without jamming or unusual noises.

DO NOT USE LIFT IF YOU BELIEVE IT IS DAMAGED OR OPERATING INCORRECTLY

Park on level ground, make sure there is enough room around vehicle to enable safe operation

ENGAGE PARKING BRAKE
KEEP OPERATORS AND BYSTANDERS CLEAR OF OPERATING AREA

WHEN USING LIFT:
STANDEES: Stand inside yellow boundary, in the center of platform, hold hand rails.
MIND YOUR HEAD!

WHEELCHAIR PASSENGERS:
Use wheelchair occupant belt.
Position within yellow boundary.
Apply wheelchair brakes before operating lift.
Inner roll stop and outer barrier must be up.

OPERATING INSTRUCTIONS

DEPLOY PLATFORM:
Push and hold **DEPLOY** button until platform stops at the horizontal loading position on the floor of the vehicle.
Release button.
The lift can now be loaded, for wheelchair passengers lock wheelchair brakes.

LOWERING PLATFORM:
Push and hold **DOWN** button until platform stops at the horizontal loading position on the ground and the outer barrier fully unfolds.
Release button.
Release wheelchair brakes and unload passenger from the platform.

RAISING PLATFORM:
The lift can now be loaded, for wheelchair passenger lock wheelchair brakes.
Push and hold **UP** button until platform stops at the horizontal loading position on the floor of the vehicle. Release button.
